Yes we are, Mike.
Thanks for assisting in this response.
joan

OK – I think we're good. Thank you everyone for your input – much appreciated.

Below is what we are going to propose:

Question #1: Did Coplay Aggregates receive violations and what, if anything, the property owners have done to remediate the problem?

Proposed Response:

Deliberative Process / Ex. 5

Question #2: Neighbors to the site have complained for years about airborne debris blanketing their property. I was also hoping to learn more about PCBs and whether this level recorded (6.75ppm) poses any risk for those residents living near the site.

Proposed Response:

Deliberative Process / Ex. 5

Folks, does this split the difference acceptably?

Neighbors to the site have complained for years about airborne debris blanketing their property. I was also hoping to learn more about PCBs and whether this level recorded (6.75ppm) poses any risk for those residents living near the site.

Deliberative Process / Ex. 5

Sincerely,
